我们的分类

Die Abbildungen in der Sortierungsmappe zeigen ausschließlich das optische Erscheinungsbild des Parketts.

Die Anzahl der Äste, die Maserung und der Splintanteil entscheiden über ein ruhiges oder lebhaftes Erscheinungsbild. Die Flächenbilder spiegeln daher weder die exakte Farbe, Fase noch die Veredelung wider.

The purpose of the grading book is to illustrate the optical appearance of the parquet and its possible variation.

All features determining the different wood qualities such as knots, structure of grain, sapwood and others are shown when they apply. Grading pictures are not representative for the true colour of the wood and do not necessarily reflect surface treatments (e.g. brushing) and bevelling.

Les photos dans le classeur de choix d'aspect représentent exclusivement l'aspect visuel du parquet.

Le nombre de nœuds, le type de structure ou la proportion d'aubier dénommés singularités naturelles font que l'aspect visuel est homogène ou contrasté. Les photos permettent un aperçu d'ensemble mais ne peuvent reproduire ni la couleur exacte, ni le veinage et encore moins le traitement de surface.

Le immagini del raccoglitore delle scelte presentano solo l'aspetto ottico del parquet.

Dipende dalla quantità dei nodi o di alburno e dalle venature se il parquet si presenta elegante o vivace. Le immagini delle superfici non rispecchiano esattamente colore, bisellatura e trattamento.

Иллюстрации в папке сортировок показывают исключительно оптический внешний вид паркета.

В зависимости от того сколько сучков, какая текстура и какое количество заболни, внешний вид паркета будет либо спокойный либо более живой. Поэтому иллюстрации поверхностей не отображают точный цвет, фаску или отделку.

样品册上的例图只能表现实木复合地板的视觉外观。想要确定木板外观到底是素净的还是鲜明的，需要看有多少节孔，哪种纹理或者是白木质的含量高低。因此平面图片既不能反映确切的颜色，加工中产生的斜边，也不能反映抛光的效果。

exquisit | *exquisit*

Bietet ein elegantes und ruhiges Erscheinungsbild in Maserung und Farbe für höchste Ansprüche.
Merkmale: Punktäste, ruhige Maserung, Spiegel, ohne Splint

The elegant and calm appearance given by grain and colour (with no light-coloured sapwood) satisfies the most exquisite taste. Characteristics: pin knots, fine grain, no sapwood, rift grain

ruhig | *calm*

Diese Sortierung ist eine zeitlose Mischung von schlichter bis dekorativer Maserung.

Merkmale: Kleine Äste, natürliche Farbunterschiede, ohne Splint

This grading mixes a timeless grain combination, from simple to decorative. Characteristics: small knots, natural colour variation, no sapwood

lebhaft | *lively*

Die Sortierung lebt durch den großen Astanteil bei ausgewogenem kräftigem Farbbild aufgrund des fehlenden Splintanteils. **Merkmale: Äste, natürliche Farbunterschiede, gespachtelte Risse, ausgeprägte Maserung ohne Splint**

This grading has a high percentage of sound knots with an even colour variation without sapwood. Characteristics: knots, natural colour variations, filled cracks, natural grain variation no sapwood

lebhaft bunt | *lively colourful*

Die lebhaft bunte Sortierung bietet die ganze Vielfalt der Natur. Durch den Splintanteil ergibt sich eine harmonische, bunte Optik. **Merkmale: Äste, natürliche Farbunterschiede, gespachtelte Risse, Splint sowie natürliche Maserung**

The lively colorful grading offers the whole variety of nature. The large proportion of sapwood produces a harmonious, colourful appearance. Characteristics: knots, natural colour variations, filled cracks, sapwood and natural grain

wild | *rustic*

Diese lebhafte Sortierung widerspiegelt uneingeschränkt Wuchsbilder und Reifeprozesse.

Merkmale: Äste ohne Größenbegrenzung, gespachtelte Äste und gespachtelte Risse, grobe Farb- und Strukturunterschiede, ohne Splint

This grade demonstrates the natural growth characteristics. Characteristics: no limitation on size of knots, open knots, filled cracks and variations in colour are permitted, no sapwood

wild bunt | *rustic colourful*

Durch den Splintanteil ergibt sich eine bunte Optik mit der vollen Ausdruckskraft des Baumes. Zeigt Charakter und lässt den Baum als Stück lebendige Natur weiterleben.

Merkmale: Äste ohne Größenbegrenzung, gespachtelte Äste und gespachtelte Risse, Splint sowie natürliche Maserung, grobe Farb- und Strukturunterschiede

The proportion of sapwood produces a colourful appearance with the full expressive power of the tree. Shows character and leaves the tree alive as a piece of living nature. Characteristics: knots of unlimited size, smoothed-out knots and filled cracks, sapwood with natural grain variation, distinct variation in colour and timber structure

exquisit | exquisite

Die Abbildungen in der Sortierungsmappe zeigen ausschließlich das optische Erscheinungsbild des Parketts.

Die Anzahl der Äste, die Maserung und der Splintanteil entscheiden über ein ruhiges oder lebhaftes Erscheinungsbild.. Die Flächenbilder spiegeln daher weder die exakte Farbe, Fase noch die Veredelung wider.

The purpose of the grading book is to illustrate the optical appearance of the parquet and its possible variation.

All features determining the different wood qualities such as knots, structure of grain, sapwood and others are shown when they apply. Grading pictures are not representative for the true colour of the wood and do not necessarily reflect surface treatments (e.g. brushing) and bevelling.

Les photos dans le classeur de choix d'aspect représentent exclusivement l'aspect visuel du parquet.

Le nombre de nœuds, le type de structure ou la proportion d'aubier dénommés singularités naturelles font que l'aspect visuel est homogène ou contrasté. Les photos permettent un aperçu d'ensemble mais ne peuvent reproduire ni la couleur exacte, ni le veinage et encore moins le traitement de surface.

Le immagini del raccoglitore delle scelte presentano solo l'aspetto ottico del parquet.

Dipende dalla quantità dei nodi o di alburno e dalle venature se il parquet si presenta elegante o vivace. Le immagini delle superfici non rispecchiano esattamente colore, bisellatura e trattamento.

Иллюстрации в папке сортировок показывают исключительно оптический внешний вид паркета.

В зависимости от того сколько сучков, какая текстура и какое количество заболни, внешний вид паркета будет либо спокойный либо более живой. Поэтому иллюстрации поверхностей не отображают точный цвет, фаску или отделку.

样品册上的例图只能表现实木复合地板的视觉外观。想要确定木板外观到底是素净的还是鲜明的，需要看有多少节孔，哪种纹理或者是白木质的含量高低。因此平面图片既不能反映确切的颜色，加工中产生的斜边，也不能反映抛光的效果。
